DETAILED ACTION

Specification

1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9, line 1, "the processing unit" lacks a proper antecedent basis in claim 8. Claim 9 is the method equivalent to system claim 2. However, claim 2 depends on independent claim 1 which includes a recitation to "a processing unit." Independent claim 8 does not include a recitation to "a processing unit." It is not clear whether applicant intends to recite a processing unit in claim 8.

Allowable Subject Matter

3. Claims 1-8 and 10-14 are allowed.

4. Claim 9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the recited system and method for pre-fetching.
